

Mission Development Certificates

Overview of MDC

Since 1955, Presbyterians, like SPC and its members, have supported the growth of Presbyterian Churches with investments in the Mission Development Certificate Program (MDC). These investments support the life of our Church by making low interest loans for purposes such as new church development, mission expansion, refurbishing of existing buildings, mortgage refinancing and emergency repairs.

A way for members and friends of SPC to support us through private investments.

SPC's mortgage is with MDC and our loan requires a minimum level of investment with them. Your private investment counts towards this requirement. You will have a direct and confidential relationship with the MDC program and if you need to remove funds at any time, SPC or its members will be given time to reinvest into the fund to ensure the requirement is met.
